

**Over 10 million  
packages  
delivered with  
Star Receiver!**

## Industrial-Strength Solution

Star Receiver is a corporate-wide tracking solution for inbound, outbound, and inter-office shipments. That's right – this isn't some mom-and-pop PC application that we've tried to scale. Star Receiver was built from the ground up to meet the tracking needs of the Fortune 1000. Since the first installation in 1997, Star Receiver customers have demanded absolute accountability in complex, high-volume environments.

And Star Receiver delivers! It offers the most complete solution available for desk-to-desk tracking of accountable items, with electronic manifesting, email notification and Web-based service requests all standard – the most advanced feature set in the industry. Star Receiver is configurable to match your existing workflows, whether you are shipping within the building, city to city, or around the world. It even interfaces to carrier systems to facilitate your outbound shipping tasks.

**“Now we're really in control of our operations. We no longer avoid answering the phone”**

– Shipping and Receiving Manager

**Cisco delivers 250% more packages in 20% fewer staff hours.**

– Frontline Solutions

## Tangible Benefits

You're good at what you do and you run a solid operation. Are you ready to take it to the next level? Star Receiver gives you the tools you need to establish accountability and control, eliminate lost packages, and provide superb customer service. Plus, with Star Receiver you can expect to:

- ❖ **Reduce your labor for logging and delivery**
- ❖ **Provide immediate access to information**
- ❖ **Eliminate overtime for tracing items and responding to inquires**
- ❖ **Lower your shipping charges for accountable inter-office items**
- ❖ **Verify compliance with service-level agreements**
- ❖ **Improve efficiency with detailed reports for process analysis and improvement**

Star Receiver delivers a significant return on investment (ROI) across your entire operation because it is a complete, integrated solution for all your tracking requirements. All the features you need are already in the product, so you won't get nickel-and-dimed when you want to expand into additional uses. Best of all, Star Receiver is offered at an extremely competitive price - it's a great value!

## Technology Leadership

Bear River is the innovation leader in applying technology to solve facilities management issues. Among all commercially available products in its field, Star Receiver was:

- ❖ First to offer electronic signature capture on handheld computers
- ❖ First to offer web-based pickup requests and access to tracking information
- ❖ First to support bundling of internal shipments
- ❖ First to support worldwide operations from a single system
- ❖ First to provide a customizable workflow for complete visibility and accountability every step of the way

**“Bear River provides excellent support. It's great working with you guys!”**

– IT systems integrator

This leadership tradition continues with new Accounting and Security support features in an IT-friendly product.

**Isn't it time you upgraded to the industry leader?** Call us to ask what a Star Receiver system can do for you, or visit us online at [www.bearriver.com](http://www.bearriver.com). And never again wonder where your package is.

## Or the VP's airline tickets?

Or Joe's personnel file? Or the accounting department's computers? With the Star Receiver **automated tracking** solution, you'll always know. Star Receiver maintains complete accountability for everything you need to track. Can you pick it up and move it? Then you can track it with **Star Receiver**.
